Parker
REIKI & FENG SHUI

Feng Shui for modern life

Your environment affects how you live, work, and feel. The ancient practice of Feng Shui offers a practical way to understand and intentionally influence that relationship. I look at spatial flow, layout, and how you interact with your surroundings to create solutions that help your home or business work better for you.

Feng Shui can help when you

- Want a fresh start or a space that better reflects your goals and intentions
- Feel like your home or workplace isn't working as well as it could
- Navigate a personal, professional, household, or team transition
- Buy, sell, or move into a home or business
- Renovate or reconfigure a home or workspace
- Find it hard to focus or complete projects

"Kim has worked her magic in two spaces that matter deeply to me … and the results were nothing short of transformational." **—Megan M.**

How it works

Every consultation is customized to you and your goals. I assess the property through the principles of Feng Shui and provide practical recommendations that can be incorporated into the existing environment. The goal isn't to redesign your space, but rather to help it function more intentionally for the people who live or work there.

About Kim Parker

Kim is a Certified Feng Shui Consultant with 20+ years of experience. As a senior corporate executive, she brings a practical, results-oriented approach to Feng Shui, making this ancient practice approachable and relevant for today's homes and businesses.
